Team player, having worked in disparate industries with people from diverse backgrounds. Detail oriented with a focus on technical knowledge and extracting efficiency through better programming practices. Hardworking with a proven record of meeting and exceeding KPIs.

TECHNICAL SKILLS:

Languages:

TypeScript | JavaScript | SQL | Python | C#

Databases:

PostgreSQL | MongoDB | Firebase

Frontend:

React | React Native | HTML5 | CSS3

Mobile Development:

Swift | Kotlin | Xcode | Android Studio

Backend:

[Node.js](#) | Express | REST APIs | JSON | PHP

Tools & Practices:

Git | GitHub | JIRA | Agile Development | SDLC

PROJECTS:

FlowState – AI-Assisted Task Management Platform

Technologies: React, TypeScript, Express, PostgreSQL, JWT, Cloudflare Workers, Gemini AI

- Developed a full-stack task management application using React, TypeScript, Express, and PostgreSQL.
- Designed RESTful APIs following route-controller-service architecture and implemented JWT-based authentication and authorization.
- Integrated Gemini AI through Cloudflare Workers to generate task descriptions from user input.
- Utilized Git and GitHub for source control and feature-based development workflows.

Tetro – Unity Game Development Project

Technologies: Unity, C#, HLSL

- Developed a puzzle game inspired by Tetris in Unity featuring custom shader programming and gameplay systems.
- Implemented vertex displacement shaders, depth-buffer based shadows, and surface-normal lighting to display unique block placement mechanics and game state.
- Designed a sophisticated physics based sticky line-clear system using coroutines.
- Applied object-oriented programming principles, game state management, and real-time rendering techniques.

EDUCATION:

Mobile App Development & Strategy

2025 to 2026

George Brown College, Toronto, Canada

- Developed web, mobile, and full-stack applications using React, React Native, TypeScript, JavaScript, Node.js, Express, PostgreSQL, Firebase, Swift, and Kotlin.
- Designed and integrated RESTful APIs, implemented client-server communication, and managed application data using relational and NoSQL databases.
- Built responsive web interfaces and native mobile applications while applying software development lifecycle (SDLC) and Agile development practices.
- Worked with iOS and Android development environments including Xcode and Android Studio, from application development through testing and deployment.
- Applied modern software engineering principles including version control, debugging, testing, and collaborative development using Git and GitHub.

Master of Arts in English Literature

2017 to 2018

University of Lahore, Lahore, Pakistan

- Graduated summa cum laude with a thesis in applying cognitive linguistics to poetry.

Bachelor of Computer Science (Hons)

2011 to 2016

Forman Christian College, Lahore, Pakistan

- Acquired a strong foundation of programming, algorithms, data structures, databases, hardware architecture, software engineering and explored specialized courses such as visual programming, computer vision, and assembly language.

PROFESSIONAL EXPERIENCE:

Interactive Media Developer

2016 to 2021

Media Network, Lahore, Pakistan

- Streamlined deployment of messenger chatbots within 24 hours using [Node.js](#) and Express with AI integration.
- Developed and maintained web applications, backend integrations, and automation solutions using Node.js, Express, PHP, JavaScript, HTML, CSS, and JSON.
- Designed and implemented Messenger chatbot solutions, integrating third-party APIs and platform services to automate customer interactions and business workflows.
- Built and customized client websites, implementing frontend functionality, analytics integrations, structured data, and backend services.
- Collaborated with cross-functional teams to translate business requirements into technical solutions, balancing usability, functionality, and performance.
- Produced and deployed digital solutions for multiple clients, troubleshooting technical issues and continuously improving application reliability and user experience.

Machine Operator**2023 to 2025****TI Solutions, Brampton, Ontario**

- Assisted with leading the team to complete production targets and quality inspection.

Freelance Designer/Copywriter**2021 to 2023****Fiverr**

- Created blog posts, website content, and ad copies.
- Provided solutions for logo design, website design, and graphics.
- Sustained a 5 star rating and glowing testimonials on the Fiverr profile.
